

Safeguarding Report St Andrews Church
Claire Reilly – Safeguarding
April 2019

This is my fourth report as safeguarding representative for St Andrew's Church.

I am pleased to say that there have been no safeguarding incidents to report for this year, which is good.

We continue to review our processes as our youth ministry grows to ensure that we safeguard our young people. Our Safeguarding Policy was agreed at the PCC.

With the introduction of our Youth Worker, Nana Otchere, we reviewed again our processes. These included new processes for the use of the 'Hut' as The Haven. This was to protect our youth that use the Haven, but also our ministers.

A review of procedures regarding the running of Exodus as the way it runs, and Youth Workers changed. We continue to review our safeguarding arrangements in changes.

All our youth workers are vigilant regarding safeguarding and open to conversations with our young people and congregation member alike to support safeguarding in our ministry.
